Introduction

The Working Conditions Information System (WCIS) is a regular annual survey of wage and working conditions negotiated in collective agreements for the relevant year. Under the auspices of the Ministry of Labour and Social Affairs of the Czech Republic, this survey has been conducted regularly since 1993. Its purpose is to map and analyse the content of collective bargaining in the Czech Republic. The aim of the survey is to provide the state and other institutions an overview of trends of collective bargaining and to provide contractual partners adequate information for further negotiations on a corporate level or for negotiations in respect of a higher-level collective agreement.

WCIS is regulated by the Commission for Regulation and Coordination of Labour connected with the information system on the cost of labour, which is composed of representatives of the Ministry of Labour and Social Affairs of the Czech Republic, the Ministry of Finance of the Czech Republic, the Czech Statistics Office, the Bohemian and Moravian Confederation of Trade Union Organizations, the Union of Industry and Transport of the Czech Republic, the Czech National Bank, CERGE-EI and the Prague School of Economics.

The survey focuses on agreements of social partners in the fields of:

- remuneration for employees
- cooperation of contracting parties
- length of working hours and increase of holiday, changes in employment
- employment rate
- working conditions and benefits
- obstacles to work
- employees' professional development, fair treatment, industrial safety and health protection at work

The WCIS survey monitors enterprise collective agreements and higher level collective agreements. The most important criterion for classification of results is whether the investigated economic entity belongs to a business or non-business sector. The business sector includes economic entities, which remunerate with a wage pursuant to Sec. 109 (2) of Act No. 262/2006, the Labour Code; the non-business sector includes entities, which remunerate with a salary pursuant to Sec. 109 (3) of the Labour Code, as amended. Input data are acquired into the system electronically by means of the acquisition programme "EKS", which is used by individual trade unions, or by direct collection of collective agreements.

The results of the WCIS survey are available for free at the Internet sites of the Ministry of Labour and Social Affairs (www.mpsv.cz) in the section *Income and standard of living* or at the site www.kolektivismlouvy.cz.

The Ministry of Labour and Social Affairs thanks all respondents of the survey for having provided the enterprise collective agreement for the purposes of the survey. The dutiful approach of respondents and observance of terms for data submission enable regular issuance of this publication.

Description of published tables

In 2011 selected data about wage and working conditions were analyzed from 1,623 collective agreements from 23 different trade unions, of which:

- 1,301 collective agreements agreed in the entrepreneurial area
- 322 collective agreements agreed in public services and administration

Outputs are classified separately for:

- A. corporate area (Part A)
- B. public services and administration (Part B) including municipalities and regions from Tables Nos. B2a-b, B3a-b, B7a-b and B8a-b
- C. municipalities and regions (Part C)

always according to:

- a. trade unions
- b. higher territorial administration units – regions

The number of collective agreements, which were subject to analysis, is shown in the column marked "NCA". Not all collective agreements contained the data agreed followed by the system, which appears in differing numbers of the presented participants of analysis at particular outputs.

Data representing outputs of less than 3 collective agreements are not given in the system (this does not concern data expressing the proportion of collective agreements, in which the appropriate value has been agreed for the total number of agreements in the file).

A. TABLE SECTION FOR THE CORPORATE AREA

1. Minimum wage and wage scales (Tables Nos. A1a, A1b)

The output is:

- ✓ The number of organizations and their share in the overall number of collective agreements in the file, in the collective agreements of which the minimum wage was negotiated. The minimum wage is reported only in cases when it was determined to be above the limit specified by Statutory Decree No. 567/2006 Coll., i.e. in an amount exceeding 8000 CZK/month and 48.10 CZK/hour with a 40-hour working week.

The analysis included collective agreements, in which the 12-scale tariff system was negotiated. The output is the average monthly wage negotiated for individual tariff scales. Upon the condition that the tariff scales were agreed with a margin, the analysis included the lowest tariff scale. The different number of analysis participants on the

lowest tariff scales results from them not being used within the tariff system and from negotiating contractual wages on the highest tariff scales.

3. Monthly wage scales - other tariff systems (Tables Nos. A3)

The output is negotiated as average monthly wage scales within individual scales in a system other than the 12-scale tariff system.

4. Hourly wage scales (40 hours/week) - 12-scale tariff system (Tables Nos. A4a, A4b)
